Feedback from our customers ...

« I have very much appreciated the approach of dekho design, listening from the beginning, then with a strikingly realistic graphic recommendation and perfect to project !
The recommendations have been explained very accurately, with regards to the use of this new dining room and the limited space available!

To be consulted in complete confidence.

Stéphanie L. (Paris)

« A huge thank you to Katrin of dekho design who has just simply knew to listen to me, understand and above all anticipate my expectations.

She allowed me to transform and old apartment into a zen, pleasant, open and warm place.

Her proposals and presentations helped me to project myself serenely despite the distance.

Her big reactivity, listening, ideas and above all professionalism allowed the concretization of this project ! »

Elisabeth B. (Noisy-le-Sec)
